Task 1 ☐ Jurassic Park CTF

Room progress (77%)

► Start Machine

This medium-hard task will require you to enumerate the web application, get credentials to the server and find four flags hidden around the file system. Oh, *Dennis* Nedry has helped us to secure the app too.

You'll also want to turn up your device's volume (firefox is recommended). So, deploy the VM and get hacking.

Please [connect to our network](#) before deploying the machine.

Answer the questions below

What is the name of the SQL database serving the shop information?

✓ Correct Answer

How many columns does the table have?

✓ Correct Answer

What is the system version?

✓ Correct Answer
